

Virtual Health Care

# HI

Powered by **Dialogue**

## Virtual health care that connects you with nurses and physicians from anywhere in Canada

### Diverse care offerings to address your needs

- » Fast access to medical professionals via chat, video, or phone
- » Video consultations with licensed doctors and nurses
- » Follow-up from the Dialogue team or referral to specialists
- » Prescription delivery to your pharmacy

- » **International student navigation:** Care team members can provide guidance for international students, answering their questions and assisting them with navigating Canada's health-care system.
- » **Out-of-country service:** If you're temporarily outside of Canada, you can access a limited number of mental health coaching sessions while abroad.
- » **Women's health:** Consult services and professionals specializing in women's health, for topics such as sexual and reproductive health, pregnancy, postpartum care and parenting, and more.
- » **Wellness Program:** This new program helps students adopt a healthy lifestyle with features like a well-being score, activity challenges, an active minutes tracker, and more.

Discover these **NEW** features
